

San Antonio Los Ranchos 9/30/2022

Receive a cordial greeting.

Thanks to God my family and I find ourselves on good health, hoping you and your loved ones have a good health as well. During this month, we commemorate the 201st year of independence of our country, the community and the students from the School Center accompanied by the teachers did a parade starting at the school heading to the Cultural Park on September the 15th, celebrating the independence of the country.

This month has been very abundant regarding to the rains, on many places through the country; mudslides happened and some incidents where people died because of the rains and for few days the classes were suspended at national level because of the situation. Fortunately, in the community there were no incidents as heavy as in other places, at the moment everything is OK.

Most farmers are harvesting the fruits of their plantations, since the effort and work carried out with great care has been worth it, and due to the presence of rains, good harvests have been obtained.

God grant you many blessings and prosperity.

Sincerely, Alfredo Recinos.
