

## Vision Council News - April 2024

The Vision Council continued their study of One Coin Found by Emmy Kegler's which discussed both the struggle to love those who have hurt us with God's work to make the table in heaven bigger. We "will know forgiveness face-to-face" and "will have the time and space to heal. We might as well work now towards being at that table.

We discussed the restructuring of the church organization with the addition of one more at large position. There will be 4 open at large positions and the VP position which will be voted on June 9th before the 10 am service. Bob Boman will take over the treasurer's position and will complete Linda's term. A sign-up sheet will be displayed for people who might be interested in the at large or VP positions. The previously identified associate pastor candidate's papers should be released at the end of April.

The Holy week activities/services went really well. We celebrated the burning of the scorpions and the payment of our bank loan. February's offerings were better than January, and hopefully continue to match our budgeted goals. The EcoFaith conference will be this weekend and has more than 200 people signed up. The Foundation speaker is planned for May 15th and posters will be placed around town to advertise it. Some time was spent on discussing the focus for our mission work. Will reach out to the Northeast synod to see what they are doing and how we could further evaluate our goals for global mission.
